<devZero> SECURITY

Outthink the Adversary, Outpace the Threat

CAPABILITY STATEMENT

COMPANY DATA

Legal Name: devZero Security LLC
Business Designation: SDVOSB - Service-Disabled Veteran-Owned Small Business
UEI: XJFNQJADKMY5
CAGE Code: 0XQU3
DUNS: 11-741-3902

SERVICE-DISABLED VETERAN-OWNED CERTIFIED

VETERAN-OWNED CERTIFIED

NATIONAL CENTER VP Veteran Institute for Procurement GRADUATE

MAJOR NAICS CODES

541512 Computer Systems Design Services (Primary)
541519 Other Computer Services
541511 Custom Computer Programming
518210 Infrastructure Provider
541690 Other Scientific and Technical Consulting
541330 Engineering Services
541990 Professional, Scientific, and Technical Services

CORE COMPETENCIES

- **Red & Purple Team Operations:** Full-scope adversarial threat emulation, testing People, Products, and Processes against advanced persistent threats.
- **Cybersecurity Engineering & Implementation:** Design, integration, and lifecycle support for Zero Trust, full lifecycle SOC build-outs, and advanced detection & response capabilities.
- **Adversarial Threat Emulation:** Nation-state level tactics, techniques, and procedures (TTPs) to validate resilience against real-world attacks.
- **Program Maturation & Hardening:** Establishing and scaling Cybersecurity Operation Centers (SOCs), incident response, and risk management frameworks.
- **Strategic Advisory & Compliance:** Aligning executive vision with technical execution, supporting mandates such as NIST RMF, CMMC, FedRAMP, HIPAA, and PCI DSS.
- **Cloud Security Engineering:** Securing AWS, Azure, and hybrid environments through identity, network segmentation, IaC-driven controls, and continuous posture management.

DIFFERENTIATORS

- **DNA in Federal Operations:** Built on 25+ years of Department of Defense, Department of State, and coalition cybersecurity experience.
- **Agility, Mobility, and Tenacity:** Mission-ready to operate in austere, denied, and contested environments down to the customer's point of presence, be it on-site, in the cloud, or at the tactical edge.
- **Cyber AI Engineering:** Building AI/ML systems for offensive and defensive cyber ops, spanning autonomous tooling, adversary simulation, and SOC automation.
- **Cleared & Certified Expertise:** Personnel holding US/NATO clearances; industry certifications across offensive and defensive domains, and CMMC Level 1 compliant (Level 2 readiness in progress).
- **Veteran-Led SDVOSB:** Lean, tenacious, and strategically positioned for set-aside and sole-source contracts.

PAST PERFORMANCE & WORK HISTORY

- **Defense Media Activity SOC Modernization Pilot (devZero Security, consulting for ZolonTech):** Designed and delivered a modernized Security Operations Center pilot demonstrating detection, monitoring, and response capabilities for cloud-based DoD web infrastructure.
- **Department of State Red Team (via Peraton):** Designed and operated advanced C2 infrastructure, breach delivery platforms, and covert comms for enterprise-scale adversary emulation.
- **Department of Defense / Combatant Command Support (via GovCIO):** Delivered cybersecurity engineering and coalition partner nation cyber capacity-building in Southwest Asia, South America, and Eastern Europe.
- **Critical Infrastructure Support (via NTG):** Deployed layered defense-in-depth and Zero Trust architectures across mission-critical government networks and communications infrastructure spanning multiple programs and theaters.
